

## **ATTENTION MEMBERS!**

We have a new style lock for 2019!

The Lock combination needs to be where the **-0-0-0-0-** are in the attached photo. **The New Lock combination is not in the middle as it has been previously...but, up higher where the -0-0-0-0-'s are sitting.**

**You will need to spin the lock before you put the Black cover over the numbers!!**

Remember, the New Lock Combination Code is **ONLY** available via the website.
